PROFESSIONAL HISTORY

Realth Service (Hybrid)   03/2023 - 03/2024
ASP.NET Programmer - Maintenance and Development
> I developed and maintained an ASP.NET Core Razor Pages application, ensuring its continuous and enhanced functionality. I actively participated in all phases of the development lifecycle, from requirements analysis to deployment and post-launch support. Additionally, I implemented advanced features, such as monthly reports for point verification and offline functionality for companies with restricted internet access.

Doctus Tecnlogia (In person)   01/2024 - Actual
ASP.NET Programmer - Maintenance and Development
> At Doctus Tecnologia, I am responsible for developing and maintaining system functionalities, with a primary focus on ASP.NET MVC. Recently, I worked on a project to create a website replicating a mobile application for a client in the USA, using NextJS as the main tool, which provided me with valuable international experience. I was the primary person responsible for using NextJS. I also work with technologies such as NHibernate, SVN, Git & GitHub, Bootstrap, and jQuery. I am grateful for the learning opportunities and the collaboration with an exceptional team.
